

## Tractor Model Guide

The following chart is a guide to determine what model tractor you have. Begin at the left, answer the question in green and follow the red answer to the next question. When there are no more questions left follow the grey bar to the Model number in Blue, and this is your model tractor. Questions pertain to the specifications of the tractors at their time of production. Modifications made by subsequent owners may require more in-depth questions...Call the factory for further information.
